Eric Dantan Rzewnicki

Projects:

-DebConf Videoteam

-Debian Multimedia Packaging team

What I hope to get from FOMS:

-Advice for integrating Caption, Transcription, and Translation workflow into DebConf tools

-Ideas for giving life to the meetings archive

DebConf Videoteam: Activity

Conference video production:

-dvswitch, scripts, configuration management, workflow, distributed review and transcoding process, conference management system integration

Features:

-software vision mixer

-live streams

-recording and transcoding

-all volunteer production

DebConf Video: Challenges

-Lack of developer time

-Post production almost never happens

-Most of the missing pieces are probably out there, but see the first challenge ...

Next Steps

DebConf Videoteam goals:

-vp8 streaming, WebM transcoding

-improve workflow

personal goals & objectives:

-get out of production and into development

-become a DD

-produce my own stuff

I'd like to talk to people from:

-Kaltura, Wikimedia, Internet Archive, openmeetings.org and Metavid
