About Me

- Silvia Pfeiffer

- Xiph, Annodex, Mozilla, W3C HTML5 WG, WHATWG

- Focus on Media Accessibility and related time-aligned text and hyperlinking technologies

- Book on HTML5 media

- I want to see from FOMS:

  - Feedback on standards: WebSRT, a11y
  - WebM baseline codec
  - Adaptive HTTP streaming

Searchable Media: Activity

- Project aim:
  - Standards for time-aligned text and media a11y
  - Standards for hyperlinking into media
  - Implementation in browsers
  - Support in Ogg and WebM
- Features:
  - Captions, Subtitles, Karaoke
  - Described Video
  - Timed metadata
  - Media Fragment URIs

Searchable Media: Next Steps

- Implement caption and text description support in Firefox

- Develop specifications for access to multitrack audio-visual resources in HTML5

- Develop examples of best practice for media a11y and time-aligned text

- Progress HTML5 media functionality: progressive HTTP streaming, audio API
