XINE : Activity

- Project aim:
  - A media playing lib with a very simple API
  - xine is well designed and modular with plugins.
  - xine supports a huge range of multimedia formats, with more being added all the time.
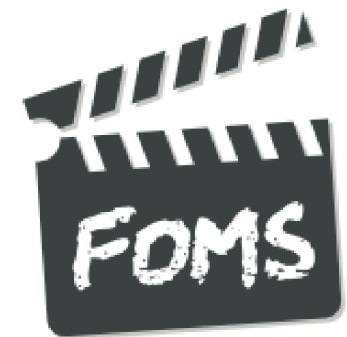

XINE : Challenges

- Software Patents

- Lack of developers

- The demuxer problem.

XINE : Dependencies

- Libraries in use:
    - Many different ones (more than 51).
    -

- Projects dependent upon:
    - ffmpeg (for codecs)
    - libdvdnav/libdvdread

XINE : Next Steps

- Fix bugs, add new codecs, features.

- There are no specific goals, the project just evolves over time.
